**DISTRIBUTOR**

# IMPURITY REFERENCE STANDARDS MANUFACTURER AND SUPPLIER

**OMSYNTH IS GMP & ISO CERTIFIED SUPPLIER  
OF HIGH - QUALITY MATERIAL & DOCUMENTATION  
INCLUDING**

**RRT, RF, PURITY, POTENCY AND OTHER  
CHARACTERIZATION DATA  
1H NMR, MASS, IR, TGA & HPLC.**

## SERVICES

- Nitroso amine and Genotoxic impurities
- Impurity Isolation and Purification
- Certified Impurity Standards
- Custom Synthesis of Impurity mg to gm
- Unknown Impurity Structure Elucidation
- More Than 5000 Certified Impurity In Stock
- Cost Effective Scientific Solution

## CUSTOM SYNTHESIS

We offer a broad range of custom synthesis of fine chemicals, building blocks, derivatives of lead compounds and intermediate that covers different chemistry on the mg to kg scale.

We offer custom specific products through arrangements protected by confidentiality agreements.

The chemistry activities at Omsynth are directed by M.Sc. and Ph.D level Organic & Medicinal Chemists with combined 10 years of experience in pharma and chemical industries. Our team has experience to handle projects of any complexity and has a reputation equalling the best in pharma industry. Our scientists use their expertise and the latest techniques to synthesise molecules.

## Omsynth lifesciences Pvt. Ltd. is Working in below areas :

- 1) API Impurity as per EP, USP, BP, JP, IP and Reference Standards
- 2) Impurity Isolation/purification by preparative HPLC
- 3) Isolation and characterization of unknown impurities from sample
- 4) In house working standards
- 5) Genotoxic Nitrosamines Impurities
- 6) Nitrosamines API and Nitroso API Intermediates, Nitroso API Impurities
- 7) Metabolites and Glucuronides

## SUPPORT TO CLIENT FROM OMSYNTH

- ◆ API's & Impurity Manufacturer
- ◆ To Make sure Quality
- ◆ Make sure Compliances at site
- ◆ Timely Delivery
- ◆ Analysis of pre-shipment sample in our Lab
- ◆ Make sure quality documentatation
- ◆ To Update Specification
- ◆ Scientific & Commercial Support
